

# Accounting, Legal and Finance - T Level

Welcome to this T Level Accounting course, where you will develop team and professional skills to prepare you for employment, alongside acquiring essential knowledge for a successful career in accountancy.

Accounting presents an exciting and dynamic career path - every organisation requires individuals who comprehend the numbers. If you have an aptitude for mathematics, enjoy problem-solving, and possess an eye for detail, accounting could be an excellent career choice for you.

You'll spend 80% of your time in the classroom and 20% on an industry placement with an employer (equivalent to 45 days) to give you the skills and knowledge companies look for. Your industry placement gives you the chance to learn what a real career is like while you continue your studies. When and how you complete it depends on the T Level, school or college, and employer.

To achieve the T Level, you will need to successfully demonstrate your achievement of each of the components.

## WHAT WILL I STUDY?
