

# Computing - Level 2 Diploma

These qualifications are for learners who want to develop and extend their digital and IT skills to prepare for different roles in the digital and creative industries, such as software and programming, network support and digital design. The qualifications are also designed for job

roles in other industries where specific digital and IT skills are required, such as finance, marketing, machining and manufacturing. The qualifications include a mandatory unit along with optional units that relate directly to the skills, knowledge and behaviours expected by employers and cover a wide range and use of different digital technologies, systems and software.

The qualifications' purpose are to:

- prepare learners to progress to a qualification in the same sector or a related area at a higher level
- prepare learners for employment within different roles in the digital and creative industries and in other industries that require specific digital and IT skills
