# Digital Production, Design and Development - T Level

This 2-year course offers a combination of classroom and workplace learning, designed with employers, to give you the skills that industries need. T Levels are ideal if you want to get hands-on experience and learn skills that will get you a job in a technical profession.

Within the T Level in Digital Production, Design, and Development, you can acquire a broad spectrum of knowledge and hands-on skills pertinent to the dynamic realm of digital design. This extensive curriculum will empower you with essential competencies vital for success in digital design.

## WHAT WILL I STUDY?

**Problem-solving:** Employ problem-solving skills to analyse issues and propose solutions that can be translated into computer programs and digital design.

**Introduction to programming:** Acquire the skills to design, comprehend, write, and debug program code, solving practical problems that could constitute either standalone solutions or components of larger programs.

**Emerging issues and impact of digital:** Apply an understanding of ethical and moral issues within the digital sector across various business scenarios, and investigate the impacts of technological advancements on organisations, individuals, and society.

**Legislation and regulatory requirements:** Use comprehension of legal matters within the digital domain across various business contexts.

**Business context:** Delve into the business environment, exploring the significance of addressing customer and end-user needs and understanding business requirements.

**Data:** Understand how organisations utilise data to fulfil business needs.

**Digital environments:** Grasp the workings of physical data storage and recovery systems, including their features, advantages, and limitations.

**Start Date:** 2 September 2024

**Duration:** 2 Years

**Attendance:** Full Time

**Location:** Enfield Centre

Security: Recognise the changing nature of digital products and the factors that drive change. Identify the stages involved in the software change management process and understand how to support software users.

## WHAT WILL I NEED?

- 5 GCSE grades 5 and above
- Level 2 qualification in Computing

## HOW WILL I BE ASSESSED?

You will be assessed by external exams and Industry projects

## WHAT WILL IT COST?

### AGED 16-18

If you will be aged 16, 17 or 18 on 31st August prior to the start date of your course and you have the legal right to remain in the UK for the duration of your programme then your study with us will be free. Please see [here](#) for the documents you will need to show us.

Some courses will have other associated costs, such as for specialist materials and trips. Many of our students are eligible for financial support, see [here](#) for details.

## WHAT CAN I DO AFTER?

Graduates of this T Level can pursue various roles in the Digital Design sector, including:

- Software Development Technician
- Junior Develop
- Junior Web Developer
- Junior Application Developer
- Junior Mobile App Developer
- Junior Games Developer
- Junior Software Developer
- Junior Application Support Analyst

**Start Date:** 2 September 2024

**Duration:** 2 Years

**Attendance:** Full Time

**Location:** Enfield Centre
