

# AI Prompt Engineering

This course on AI Prompt Engineering equips participants with the skills to design and refine prompts for optimising interactions with artificial intelligence systems.

Covering fundamental principles, practical techniques for crafting effective prompts, and strategies for evaluating and improving AI responses, the course also addresses ethical considerations such as biases.

Aimed at AI practitioners, data scientists, and content creators, it provides essential knowledge for tailoring prompts to specific applications, enhancing AI performance, and ensuring responsible use.

No advanced technical background is required, making it accessible to those with a basic understanding of AI and natural language processing.

## WHAT WILL I NEED?

Please be prepared to provide your residency documents such as a passport, EU citizen ID card, UK Birth Certificate or Biometric Card. If you have been in the UK for less than 3 years or have entered the UK with a visa you will need to provide evidence that you are eligible to study in the UK - your visa, your biometric card that covers the duration of your course or any relevant home office documents to support your residency should all be provided. If you're an EU, EEA or Swiss citizen we will need to see evidence of 'Pre-Settled' or 'Settled-status' documents. Also for funding purposes we would need to see evidence of payslips if working (within the last 3 months). If you are receiving benefits (e.g JSA, ESA, Universal Credit (UC), Housing benefits etc. please provide evidence of this).

## WHAT CAN I DO AFTER?

On completion of this course, you can progress onto further study in this area.

**Start Date: 15 January 2025**

**Day: Wednesday**

**Time: 17:30 - 20:30**

**Duration: 6 weeks**

**Venue: Tottenham**
