

Database Software and Design

In this course, you will learn how to use relational databases to organise and manage data efficiently.

You'll discover how to create and use tables to store information, perform searches and updates, and ensure data accuracy and consistency. The course also covers managing transactions, protecting data with backups, and securing it to prevent loss

By the end of this course, you will have the skills to effectively handle and process data for various applications, making it easier to manage information in business and other contexts.

WHAT WILL I NEED?

Please be prepared to provide your residency documents such as a passport, EU citizen ID card, UK Birth Certificate or Biometric Card. If you have been in the UK for less than 3 years or have entered the UK with a visa you will need to provide evidence that you are eligible to study in the UK - your visa, your biometric card that covers the duration of your course or any relevant home office documents to support your residency should all be provided. If you're an EU, EEA or Swiss citizen we will need to see evidence of 'Pre-Settled' or 'Settled-status' documents. Also for funding purposes we would need to see evidence of payslips if working (within the last 3 months). If you are receiving benefits (e.g JSA, ESA, Universal Credit (UC), Housing benefits etc. please provide evidence of this).

WHAT CAN I DO AFTER?

On completion of this course, you can progress onto further study.

Start Date: 08 January 2025

Day: Wednesday

Time: 13:00 - 17:15

Duration: 12 Weeks

Venue: Tottenham
