

Infection Prevention and Control in Healthcare Settings - Level 2 Certificate

This qualification is designed for a wide range of individuals who wish to gain an understanding of the prevention and control of infection within healthcare settings.

You can enrol on our FREE distance learning courses from the comfort of your own home, with all workbooks and assessments available online with the help of your tutor who will be assigned to support you throughout your training. All you'll need is a computer (laptop or PC, Windows, or Mac), tablet and access to the internet.

Awarding body: NCFE/CACHE

Duration of course: 2-3 Months

Guided learning hours: 111

This qualification aims to help you to understand:

- The meaning and importance of infection control
- The causes of infections, the conditions in which they thrive and the ways that they can be spread
- Methods used to prevent and control the spread of infection

WHAT WILL I STUDY?

To be awarded the Level 2 Certificate in the Principles of the Prevention and Control of Infection in Health Care Settings, learners are required to successfully complete 4 mandatory units:

- Unit 01 – Principles of the Causes and Spread of Infection in Health Care Settings
- Unit 02 – Principles of the Importance of Personal Hygiene and Health in the Prevention and Control of Infection in Health Care Settings
- Unit 03 – Principles of Decontamination, Cleaning and Waste Management in Health Care Settings
- Unit 04 – Principles of Infection Prevention and Control in a Health Care Setting

WHAT WILL I NEED?

Time: This is an online course that you can work on at your own pace. You will be allocated a tutor to provide you with online guidance and support.
