

# **Data Protection and Security - Level 2 (NCFE)**

The purpose of this qualification is to allow you to demonstrate an understanding of data protection and data security. It will help you progress to a work role where data protection and data security knowledge is required.

Data protection compliance is an essential legal requirement for all organisations. Since the General Data Protection Regulation (GDPR) came into force in May 2018, it is more vital than ever that anyone who works with personal data understands the laws and acts in compliance. Failure to process personal or sensitive data securely and lawfully can lead to severe penalties. Making sure that your employees are acting compliantly, and handling data correctly is essential in any sector.

You can enrol on our FREE distance learning courses from the comfort of your own home, with all workbooks and assessments available online with the help of your tutor who will be assigned to support you throughout your training. All you'll need is a computer (laptop or PC, Windows, or Mac), tablet and access to the internet.

Awarding body: NCFE/CACHE  
Duration of course: 2-3 Months  
Guided learning hours: 110

## **WHAT WILL I STUDY?**
